

ROCKY MOUNTAIN FAMILY THERAPY NETWORK

From the Board

Greetings to all of you in the Rocky Mountain Region!

I wanted to take a few lines to share some thoughts with you in our latest newsletter.

- 2020 has shaped up to be an incredibly eventful year for not just RMF TN, but the whole world. Each trial we have faced this year has put our resolve to the test and it is unlikely the storms are not over.
- The uncertainty we are facing now from many fronts serves to highlight something for us as a group. The reality is that many of the challenges others are now seeing, you have already seen daily. By choosing to work as a marriage and family therapist, you have dedicated yourself to helping the dispossessed and the forgotten. It is often thankless and exhausting work, even if it is needed.
- As the world begins to adjust to new realities, we will also adjust. Perhaps though the adjustments will lead others to see what we see every day. Perhaps in seeing change will come. Perhaps more help will come. We certainly need it.
- It will also undoubtedly lead us to continue to examine how we provide connection to you. As the realities of the past two years have unfolded, we have enjoyed some success and setbacks and are committed to hearing what you want this network to be.
- You are part of a profession that makes our communities better. Are there ways we can still improve? Of course, changes will continue. Please hear though that your efforts are not forgotten. You have touched many lives in ways you probably do not realize, and as we move into the future you will touch many more.
- It may be hard. You may not hear “Thanks!” often, but that does not make your contribution any less. Thank you for being dedicated to our communities. Thank you for your dedication to this network and our profession. Stay safe and healthy and keep doing the good work that you do every day.
